THE EXHIBITION 2022-23

The PYP Exhibition is the culminating process of the IB Primary Years Programme (PYP). It was held on 10th May 2023. Students of Grade 5 presented their journey in the PYP and aptly called the exhibition, **Change to make the change**. It was a day of hope for students and for our planet as the learners hope to make a change. It celebrates the growth of students as global citizens.

The exhibition gives students an opportunity of engaging in a collaborative transdisciplinary inquiry process and demonstrating their development of the IB learner profile attributes, approaches to learning (ATL skills), knowledge and abilities to take action while being involved in investigating and offering solutions to real life issues or problems. The emphasis lies on the process of carrying out and monitoring this inquiry and the process involved in the final presentation.

The core idea of this year's PYP exhibition is everyone can change to make a change for the future and hence the central idea- **People have a role to play to sustain life on this planet**. Each child inquired into their area of interest. Grade 5 scholars identified their interests and made connections to global contexts inspired by the United Nations sustainable development goals (SDGs) and applying it to real-world issues that they identified based on their research and engaged in reflecting on their learning.

Principal Ma'am,
Mrs. Arti Gupta
addressing the gathering

Mrs. Chandrei
Choudhury,
IB PYP Coordinator,
explaining the
process and
significance of the
PYP of the
exhibition

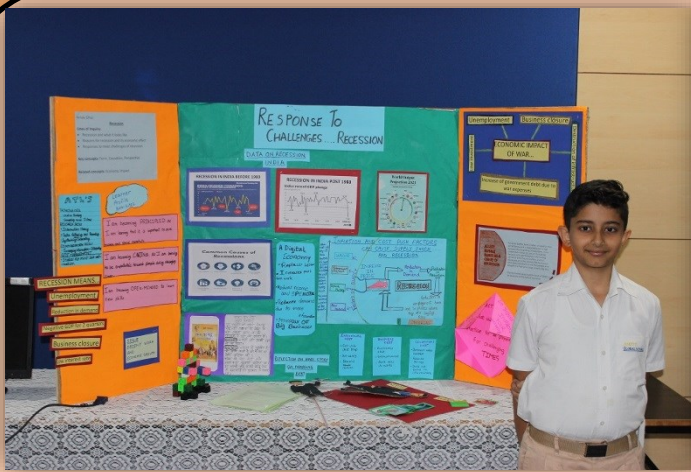

Lighting of lamp followed by Shlokas by students of grade-5

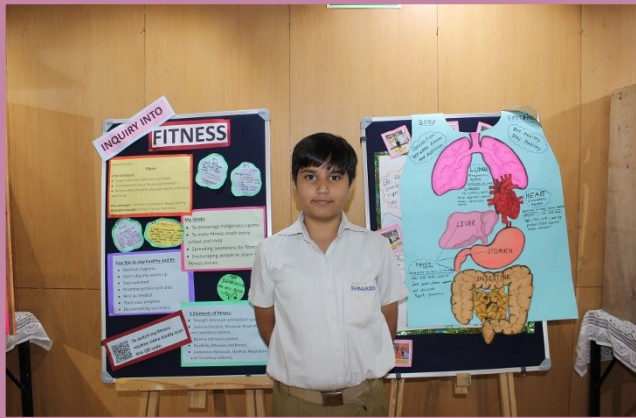

Felicitation of mentors—parents and Teachers and guests

Displays prepared by students

Students sharing their inquiry, learning and process to parents and guests

Dance Performance

**Singing
the AGS
SONG**
