# Skit

# The Global Times

## Managing Editor: Ms.Vira Sharma's address

# Official Launch of GT 2024-25

Read and  
grow...

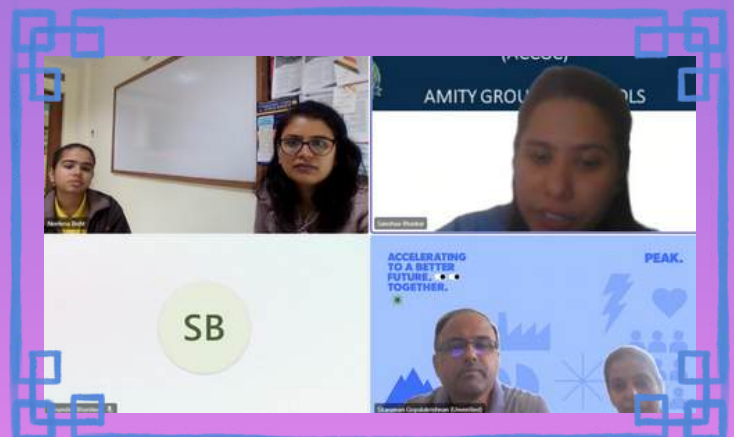

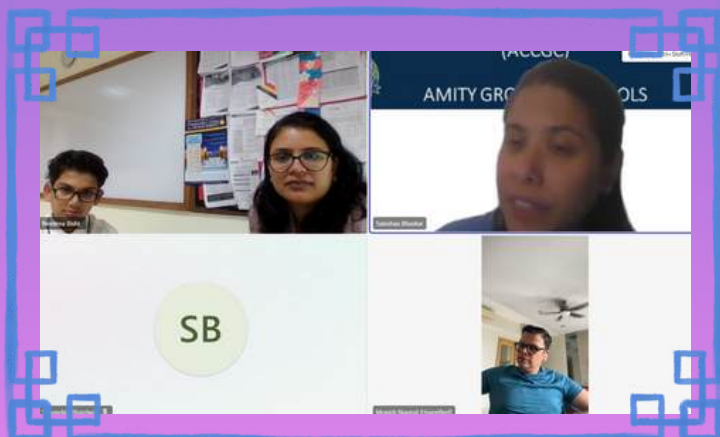

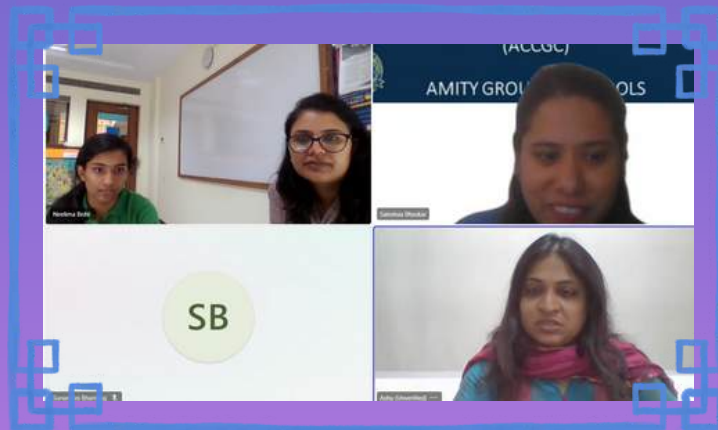

# Aptitude & Psychometric Testing for IGCSE Year 1

IGCSE Year 1 students appeared for a series of aptitude and psychometric tests designed to assess their strengths, interests, and personality traits. These tests have empowered students to make more informed and confident decisions when selecting subjects for their upcoming academic and career pathways.

# Personalized Guidance through One-to-One Counselling Sessions

The aptitude testing was followed by one-to-one counselling sessions conducted online by Senior Counsellors from Amity Career Counselling & Guidance Cell (ACCGC), and our High School Counsellor, Ms. Neelima Bisht. These sessions offered personalized guidance, helping students interpret their results and align their subject choices with their future goals and aspirations.

# Amity University-Summer Program

On April 5, students from Grades 9 to 12 attended an engaging awareness session on summer programs, conducted by Mr. Amit Pamnani, Deputy Director(Campus Placement) from Amity University. The session highlighted the relevance and benefits of participating in summer programs, helping students understand how such experiences can enhance their academic profiles and personal growth. The informative session was well-received by students, sparking enthusiasm and curiosity about future opportunities.
