AGS Students' Visit to National Science Centre

On 14 and 15 October 2024, students of Amity Global School, Gurugram from Grade 3 to Grade 9 visited National Science Centre.

The visit to the National Science Centre offered students an engaging and enlightening experience that extended beyond the classroom. As they explored the interactive exhibits students gained a deeper understanding of scientific concepts. This immersive environment stimulated curiosity and fostered a lifelong interest in science and technology. Moreover, the visit encouraged critical thinking and problem-solving skills as students interacted with various scientific phenomena.

Ultimately, such an educational excursion inspires students to pursue further learning in STEM fields, equipping them with the knowledge and enthusiasm to contribute to scientific advancements in the future.

*With twinkle in their eyes
Questions in their mind*

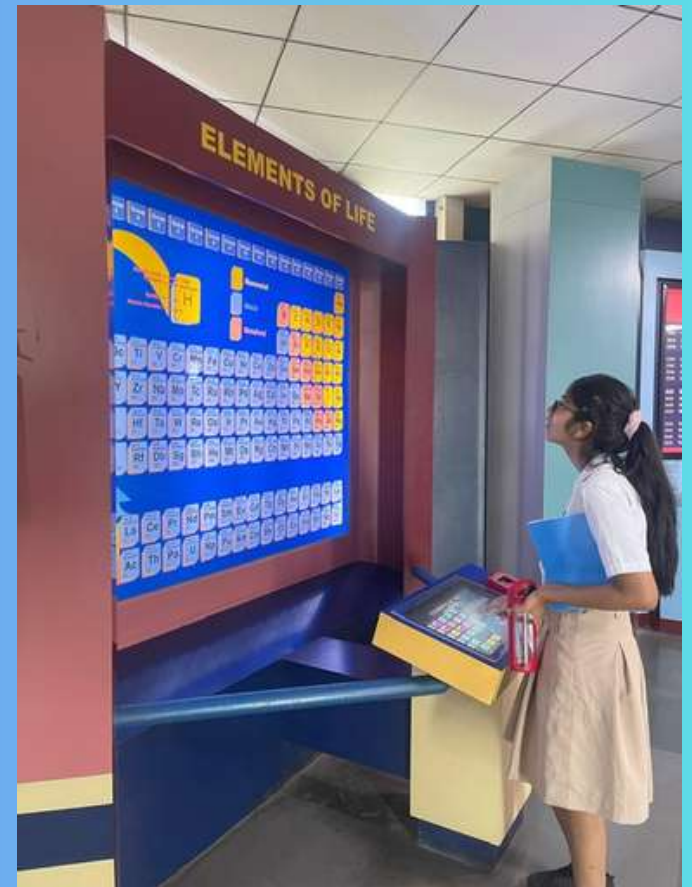

*Learners became observers to
Unravel the world of Science*

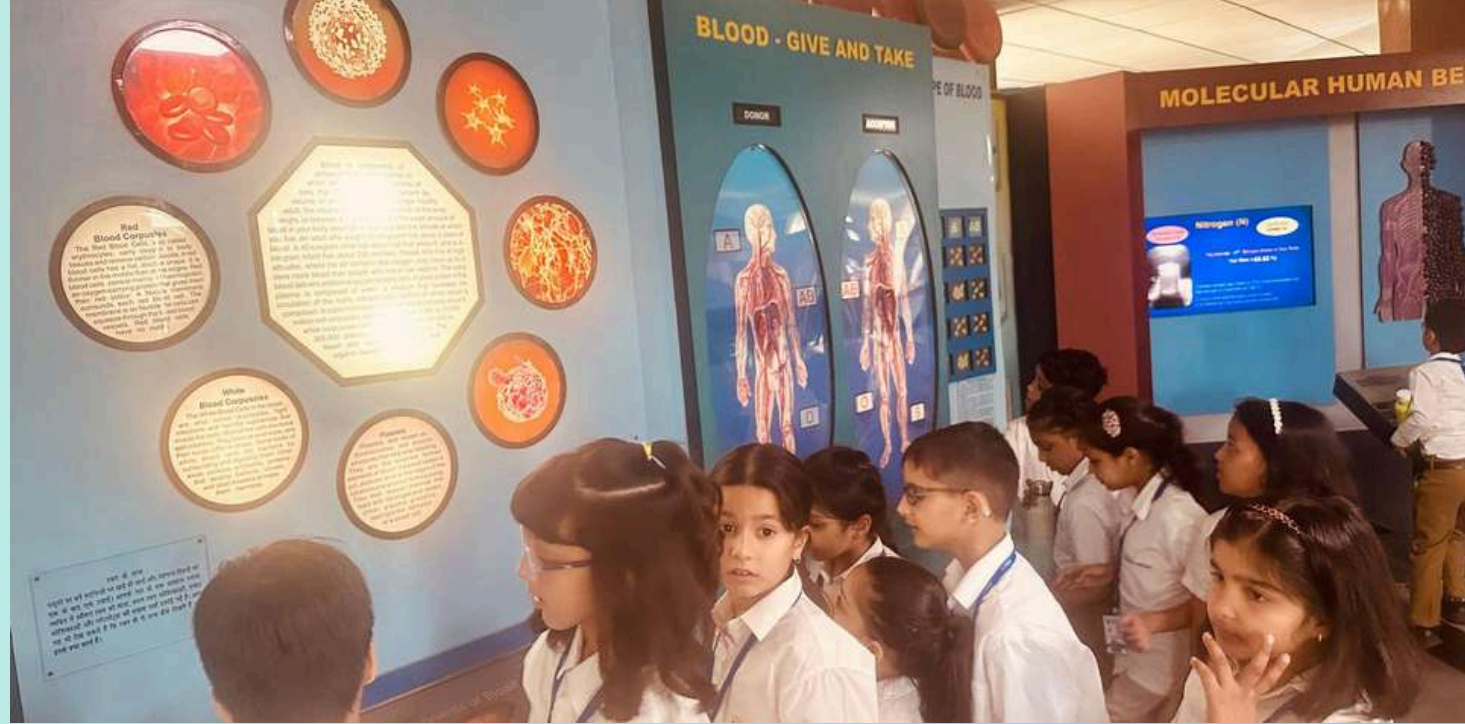

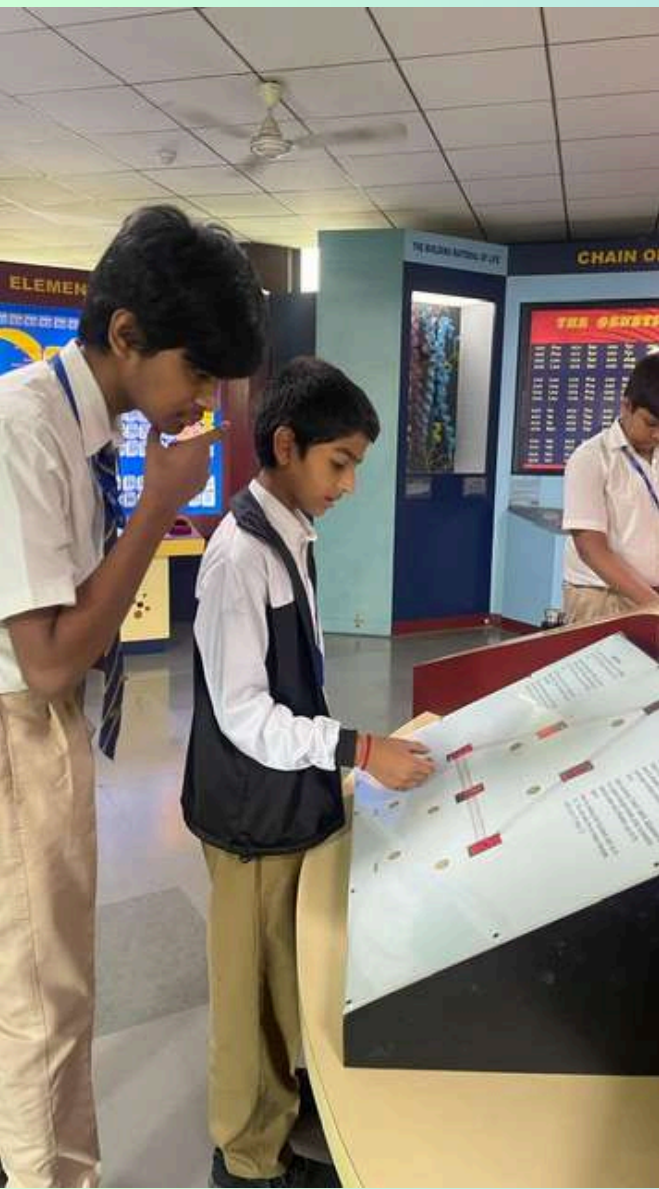

Students explored various galleries:

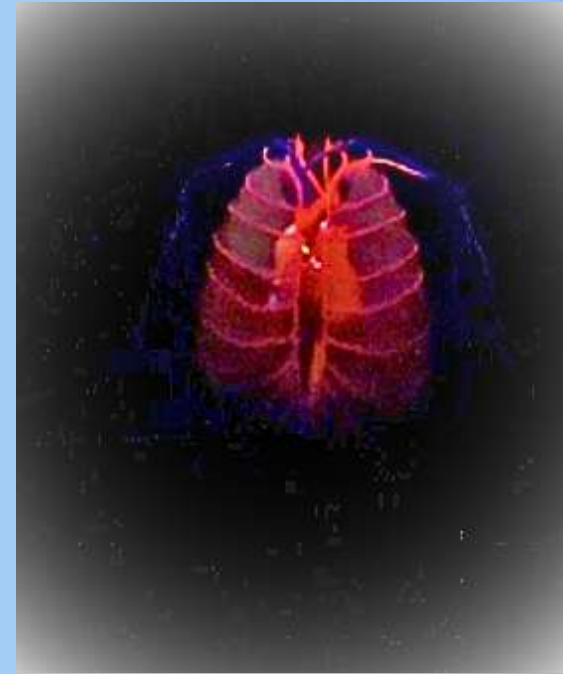

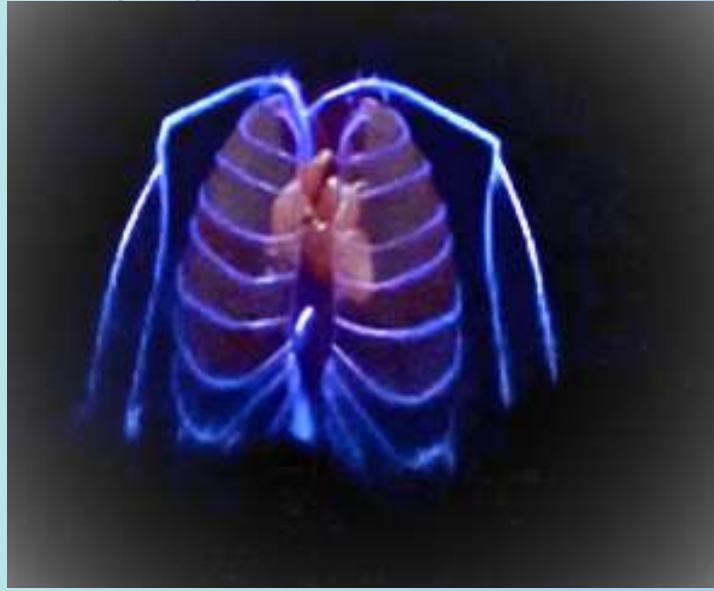

Human Biology Gallery portrays human body in all aspects.

Learners were amazed by the perfection of human bodies. They enjoyed various games and activities associated with each exhibit.

Learners enjoyed HOLO SHOW in this gallery - a short film of about 15 minutes duration titled 'Our Body Systems' has been developed for screening in holographic theatre.

Galleries like Prehistoric life, Hall of nuclear power, Water – the elixir of life were thought provoking.

**Learners realized the impact of science in our everyday life and the prevalence of it in all spheres and in various forms.
All we need is to think and observe.**

Fun Science Gallery - Learners were entranced by the magnificence of science and its wonders. They enjoyed each exhibit and fell in love with Science all over again.
