

CLASS ASSEMBLY

THEME: CIVIC SENSE

Small acts, big impacts

Presented by: Lower Secondary Year 1

*“Real change doesn’t begin in policies-
it begins with people.”*

*With this thought, the students of
LS 1 came together not just to speak
about civic sense, but to practice it as
responsible Amitians.*

The thought of the day reminded the students that responsibility begins with small actions taken by everyone to reflect on the kind of citizens they wish to become.

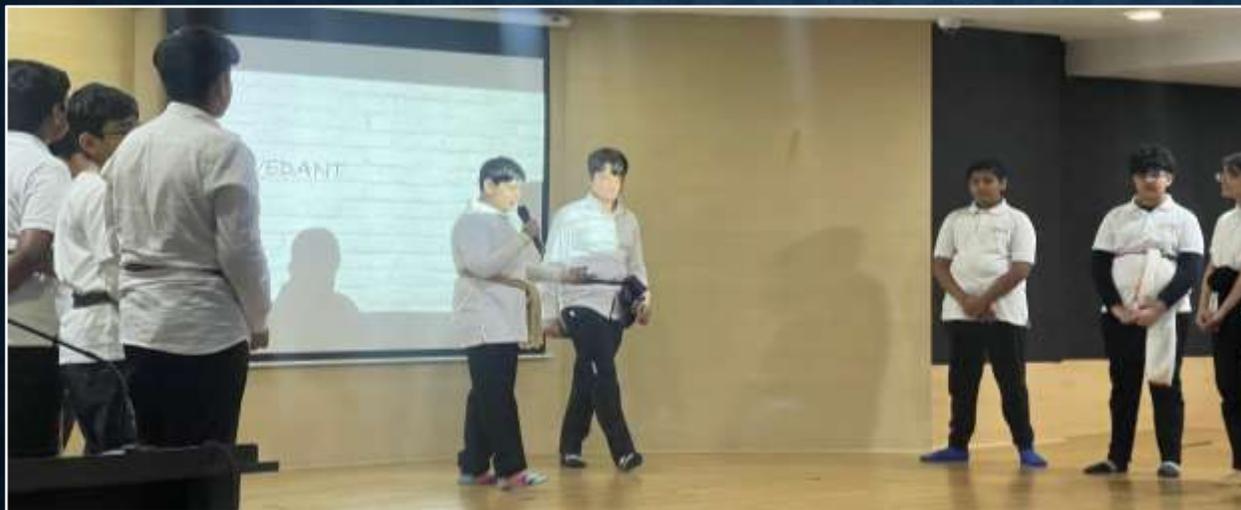

The news segment then connected everybody to the world beyond the classroom.

Our young musicians beautifully showcased their talent, adding rhythm and energy to remind that harmony in sound reflects harmony in society.

Through relatable real-life situations, the skit encouraged us to reflect on our everyday actions and their impact on society.

Each scene highlighted how small actions shape a responsible society.

With energy and enthusiasm, our students celebrated unity and responsibility through every step and rhythm.

If we change, the nation will change!

The assembly came to a closure with the motivating words from our Vice-Principal, Mr. Ved Prakash inspiring us to act responsibly.
